PRODUCT DETAILS

Tornado Balls are excellent for rhythmical stabilisation drills, explosive rebounding exercises against a wall, explosive floor core training and dynamic integrated training – such as standing lunge and slam. Ultimately Tornado Balls are tough, long lasting and provide a challenging workout - great for both power and core stability training.

They are stylish and offer a dynamic and effective, as well as rewarding workout. It is an innovative and versatile piece of modern training equipment and can be used for functional resistance training or anaerobic conditioning.
