PRODUCT DETAILS

Berg Reppy Rider

At BERG, we want to inspire children to play outdoors. With a BERG go-kart, you're guaranteed many years of play, safely over miles and miles. At BERG, we have a huge range of go-karts for young and old, big and small. These vary from a foot-to-floor cars with pedals (10 months and older) to electric go-karts (6 years and older). BERG go-karts are available in various colours for boys and girls. We have the ideal go-kart for you! The BERG Reppy line is suitable for children aged from 2.5 to 6 years. The Reppy BMW, Roadster, Rebel, and Racer come with the awesome Race soundbox. This soundbox has 4 different knobs: braking, tooting, starting the motor and accelerating.

Attractive design

The design of the Reppy definitely makes you the edgiest in the neighbourhood! Just look at the low bucket seat and that striking racing steering wheel! This go-kart is super easy for adults to

lift using the frame handle. The go-kart is light and compact, making it easy to store away after playing. It's also extra stable due to the 4 wheels. Grows along with your child and direct drive

The bucket seat can be easily adjusted to 4 positions using the rotating knob. No tools are required! The low seat position makes adjusting the steering wheel unnecessary. The steering wheel is always accessible, no matter which seat position the child takes. The direct drive system makes it easy to pedal forwards and backwards. Leg movement is directly converted into action through the fixed connection between the front pedal crank and the rear axle.

EVA tires

EVA tyres are made of high-tech foam. The BERG Reppy, is the ideal replacement for traditional rubber inner and outer tubes. Due to the right composition, EVA tyres are just as wear-resistant as traditional rubber tyres, but they can never leak air. These tyres are also whisper silent. This makes the go-kart ideal for use indoors and out.

Accessories

Complete your Reppy go-kart with BERG accessories. Stand out more in traffic with the safety flag. The Reppy Roadster, Racer, Rebel and BMW can be enhanced with the Race Soundbox. That makes your go-karting even more real! A trailer is handy for carrying your stuff and makes playing outdoors even more fun.

Cradle to Cradle certified

This BERG product is Cradle to Cradle certified. This product targets optimizes and verifies in design and manufacturing by manufacturing the safety, quality, and responsibility of products in five categories: use of healthy materials, products circularite2 CO, energy efficiency, water management, and social responsibility.
