PRODUCT DETAILS

A textured grip surface ensures superior grip and handling even during intense workouts.

Durable rubber construction means Body-Solid Tools Medicine Balls will retain their shape and integrity. Thick, reinforced rubber construction and inner windings prevent Body-Solid Tools Medicine Balls from splitting or cracking.

Each Body-Solid Tools Medicine Ball features large, easy-to-identify weight identifiers while color-coding for each weight offers simple and quick recognition.

Designed for exceptional comfort, Body-Solid Tools Medicine Balls feature a firm-grip design, ideal for throwing, bouncing and light rebounding. Adjustable air pressures puts users in full control of the bounce and adds variety to exercise routines.
