PRODUCT DETAILS

Product Details

This outdoor trampoline is the ideal equipment to have fun in the open air.

Ideal for gardens, beaches, camping holidays, agricultural tourism or leisure areas, is designed both for sheer fun and for fitness. Jumping on a trampoline in the open air helps make the most of this sport benefits, improving tissues oxygenation and lung capacity. An attractive alternative to other outdoor sports activities.

Manufactured with first quality materials, such as the jumping mat in permatron and the hot dip galvanised steel frame comprised of T-shaped components, where no weldings are used, the Outdoor trampoline is extremely sturdy, to allow for the jumpers' necessary safety.

Frame: 2.2mm thick tubes in antirust steel with internal and external hot dip galvanisation. The structure is comprised of non-deformable and unbreakable T-shaped components, avoiding any weldings, for the maximum duration and safety.

Protection pads: outer polyester coating; inner pad in high density foam rubber.

Compression springs for increased resistance, made in internally and externally hot dip galvanised steel, for better anti-rust protection.

Complies with the harmonized European rules EN on safety EN 71 and with the safety specifications provided by TÜV-GS.

Maximum User Weight	100 Kg
Net Weight	32.4 Kg
Gross Weight	35 Kg
Dimensions When Assembled (LxWxH)	diameter: 244 cm, height: 60 cm
Other Details	Width protection cushion: 29 cm
