PRODUCT DETAILS

Outdoor Bike II

The Bike II is a perfect cardio outdoor gym equipment that involves both the arms and the legs.

Develops thigh muscles, calves, abdomen and arms. Improves the functioning of the cardiopulmonary system. This device is available in two versions: Comfort and Standard one.

Comfort version means that seat and backrest are covered by polyurethane foam (PU system). In the result users never have a feeling of hot touch on very sunny days, or cold during frost. The key point of this version is to provide everyone with optimal comfort for exercise. If you prefer mainly resistance for vandalism the best option is to choose version Standard with metal seats and backrests

To do exercise sit down on the seat, grab the handle with your hands, place your feet on the steps. Start to press on the steps as if you were pedalling and move hands alternately. Keep your back upright.

Differences in dimensions no more than +/- 5% are acceptable.

The presented drawing is for illustrative purposes. Actual product may be slightly different

Material

- Construction is made of powder-painted steel and protected against corrosion.
- Steps are made of aluminium.
- Handles are made of pipe ended with rounded decorative elements and profiled to ensure ergonomics and user safety.
- Construction is welded and has no plastic ends except for bearing connections where it is possible to maintain/repair.
- The device is mounted on a supporting pole, that is attached to the ground by the flange.
- The flange is screwed with M16 screws into anchor fixed in the concrete. Anchoring nuts are secured against unscrewing.
