PRODUCT DETAILS

- With 2 years warranty parts and labour
- Does not include rechargeable controller

Add System-Arms to your Slendertone System collection for the easiest way to get firmer, stronger, more defined arms. System Arms comes with an interchangeable controller that powers a range of garments, which firm, tone and strengthen different areas of your body.

System-Arms uses Slendertone's clinically proven and patented C.S.I Technology - a signal is sent to the nerves, through the pads, which in turn contract the biceps and triceps muscles.

Features:

- Uses clinically demonstrated EMS technology
- 3 training programs - Conditioning, Strength and Power
- Work both tricep & bicep muscles and arms simultaneously
- Training levels 0-99 allow for increased intensity for maximum results
- Certified to medical safety standards
- Garments fit a circumference of 10"-19.5"
- Requires Slendertone controller (sold separately)

Description:

Get stronger more toned arms with Slendertone Arms Male Accessory (requires a rechargeable & interchangeable controller). The product activates biceps (biceps brachii) and triceps (triceps brachii), replicating arm toning exercises for a full workout. The Slendertone Arms Male Accessory uses advanced clinically proven Electronic Muscle Stimulation (EMS) Toning Technology to target the biceps and triceps, helping you to achieve more toned, stronger arms.
