PRODUCT DETAILS

Free Assembly!

The **Toorx ASX-6000** is a premium all-in-one training system combining a **dual adjustable pulley**, **Smith machine**, and **power rack** in a single, compact structure. Built with a heavy-duty steel frame and smooth aluminium pulley system, it provides professional-grade performance for both home and commercial gyms.

Equipped with **2 x 90 kg enclosed weight stacks**, 22 pulley height adjustments, 14 Smith-bar positions, and 31 J-hook/spotter settings, the ASX-6000 offers exceptional versatility for full-body strength training. Perform squats, presses, rows, pull-ups, dips, cable exercises, landmine movements and more — all with one machine.

The rack includes multiple accessories such as a chin-up bar, dip handles, landmine, bar

holders, plate storage, and a full set of cable attachments. Optional upgrades (belt squat, leg press, lat seat, monolift, etc.) allow further customization.

The ASX-6000 is the ultimate multifunction solution for users who want maximum training variety, robust construction, and commercial-grade performance in a single unit.
