Toorx BRX AIR CROSS Air Bike

A professional air resistance bike designed for high-intensity cardio and full-body training. Featuring a powerful air braking system with 7 radial blades, the resistance automatically adjusts to the user's effort—delivering a smooth, progressive, and highly challenging workout suitable for both endurance training and functional cross-training sessions.

Built with a heavy-duty steel frame and commercial-grade components. It supports a maximum user weight of 150 kg, ensuring excellent stability even during intense training.

The LCD console provides clear real-time feedback including time, distance, speed, RPM, calories, watts, and heart rate, allowing users to accurately track performance and training progress. The integrated wireless heart rate receiver enhances training precision for cardio and interval workouts.

The bike is equipped with a comfortable adjustable saddle featuring vertical and horizontal micrometric adjustment, allowing users to find an optimal riding position. The multi-grip ergonomic handlebars and extra-large pedals with adjustable straps ensure comfort, stability, and full-body engagement during workouts.

Additional features include a smartphone/tablet holder, bottle holder, transport wheels, and leveling feet for improved convenience and usability in professional training environments.

Maximum User Weight	150 Kg
Resistance	Dependent on air resistance
Brake System	Air-Cooled with 7 radial blades
Computer Functions	Time, Distance, Calories, Speed, RPM, Heart rate, Watts
Programs	Manual, Target Programs: Time, Distance, Calories, Heart Rate. Interval Programs: 10/20, 20/10, Custom
Display	LCD display console - smartphone and tablet holder included
Adjustable Seat	Vertical and horizontal adjustment
Net Weight	53.5 Kg
Gross Weight	62.5 Kg
Dimentions When Assembled (LxWxH)	131.5 x 61 x 127 cm
Dimentions Of Box (LxWxH)	(L x W x H) 132 x 27.5 x 89 cm
