PRODUCT DETAILS

Toorx Dual Wooden Wall Bar

Wall mounted wooden PE frames are the most popular type of climbing bars in gymnasiums, universities, senior schools and sports halls.

Single wooden wall bar made of solid beechwood, varnished, well finished and polished.

Key Features:

- ☐ Made out of solid beech wood

Benefits Of The Product:

Wall bars are great for mobility, stretching and flexibility training. These are also great for bodyweight exercises and wall bars do not take up much room.

These are an excellent addition to school gyms, fitness studios or even at home.
