Toorx ERX-300

The ERX-300 comes with multiple useful features such as a large multicolor LCD display that shows you all of your workout data. Featuring also a 32 levels of motorised resistance this cross trainer is suitable for both beginners and athletes.

The elliptical tracks your distance, time, calories, pulse, speed and RPM. Additionally, the ERX-300 comes with programs so you can select a workout and the machines guides you. These programs are manual, beginner, advance, sporty, cardio, watt, recovery, body fat tester and 4 HRC.

Built-in Bluetooth intelligent system which enables your bike to fully interact with the most

motivating Apps specifically suitable for bike training. Includes iConsole+ App with maps and routes worldwide, fitness plan and workout record. Compatible with Kinomap (subscription not included)

Key Features:

- Magnetic braking system
- Motorized 32-level resistance adjuster
- App Ready - iConsole+ App included. Kinomap (compatible)
- HRC - Heart Rate Control
- Built-in wireless pulse receiver

Benefits Of The Product:

The benefits of using an elliptical machine for weight loss are evident, with many people successfully using this piece of equipment to accelerate their fat loss.

In terms of calories burned, workouts on elliptical cross trainers are comparable with the treadmill, but can often feel easier as larger groups of muscles are used to generate the movement.

The precise number of calories burned during a workout on the cross trainer will depend upon a variety of factors, including age, gender and your current level of fitness, but it's certainly one of the most effective machines to use if your goal is to lose weight.
