PRODUCT DETAILS

Toorx Indoor Cycle SRX-500

This indoor spinning bike features a fixed gear drive train and a 24 kg CNC-balanced flywheel. The braking system is magnetic with motorized resistance adjuster. Brake button for emergency stop. The frame is made out of high-density steel which can support a maximum user weight of 150 kg. Additionally, the frame has built-in transportation wheels and rubber adjustable feet for uneven ground.

Almost everything is adjustable on this spinning bike for the best user experience. Both the saddle and the handlebar can be adjusted vertically and horizontally with micro-metric precision.

The console has an LCD display that shows you your distance, time, calories, pulse, speed, odometer and scan. Additionally, the console has a built in smartphone/tablet holder. The bike

also comes with 12 pre-set programs, 4 HRC and a watt program. With a built-in bluetooth intelligent system which enables your bike to fully interact with the most motivating Apps specifically suitable for bike training. The iConsole + App are included with the spin bike. The console is compatible with the Kinomap fitness and Zwift.

A chest belt is included with the bike for heart rate measuring. The pedals feature a quick cleat retention system.

Key Features:

- App ready
- Adjustable seat and handlebar
- Motorized tension control
- Chest belt included
