PRODUCT DETAILS

Toorx SRX-9000

– With 2 years warranty on parts and labour

The **Toorx SRX-9000** is a professional indoor cycling bike designed for intensive training and demanding users. Built with a sturdy, thick steel frame and a 56 kg overall product weight, it offers excellent stability and durability. It features a belt-drive transmission system for smooth and consistent pedalling, combined with a leather felt pad braking system for precise resistance control. A safety lever allows quick flywheel locking for added security.

Designed for comfort and performance, the SRX-9000 comes with a racing saddle featuring vertical and micrometric horizontal adjustment, allowing users to find their ideal riding position. The handlebar is also adjustable vertically and horizontally, and includes a double bottle cage

holder for added convenience. It is equipped with quick-release SPD pedals and a 3-piece crank, making it suitable for serious indoor cycling workouts.

The SRX-9000 supports optional connectivity and performance monitoring through an optional computer and heart rate monitor, displaying essential workout information including speed, distance, RPM, calories, heart rate, time, and watts. It supports BLE and ANT+ transmission channels and can also be equipped with an optional power meter. With a maximum user weight of 150 kg, transport wheels, and professional-grade construction, the SRX-9000 is an excellent choice for commercial gyms and professional fitness environments.
