Printed on : November 22, 2026

The grip side is made out of PU leather which provides ample grip during your workouts. The backhand of the gloves are made out of lycra which increase ventilation to reduce sweating. The gloves also feature on and off tabs to easily pull off.

Key Features:
 Leather and lycra
 Pull tabs for quick wearing and removing

Benefits Of The Product:
Weight lifting gloves protect your fingers and hands from unwanted bruises and calluses. Additionally, lifting gloves provide grip which means that chalk in no longer needed. Training with gloves can relieve pressure that is placed on your hands while training.
