PRODUCT DETAILS

Toorx Olympic Fractional Steel Weight Plates 2.5 Kg Pair

These Olympic fractional weight plates are made out of steel which makes them very durable

for intense use. The plates feature a 50 mm diameter which is suitable for Olympic barbells, dumbbells and sleds.

The plates come in a black colour which will match any gym layout with their sleek finish. Having fractional weight plates is a must since they allow you to have a precise workout and gradual loading increase from workout to workout.

Key Features:

- Durable steel
- Black
- Suitable for Olympic barbells
