PRODUCT DETAILS

- With 2 years warranty parts and labour

Toorx Rower Active Pro

The Toorx Rower Active Pro Rowing machine with programs from Toorx Fitness. Ideal for people who want to work on fitness at home or burn extra calories. The built-in heart rate receiver allows you to wirelessly measure your heart rate during training for a correct indication of your training level. The space-saving design ensures.

Chest Strap

An optional heart rate chest strap can be linked to the rower to display your heart rate while working out. Sold separately

Key Features:

- Roller seat sliding on aluminium rail
- Rail incline adjustable on 3 levels
- Manual with 12-level tension control

Benefits Of The Product:

Rowing machines, also known as ergometers or ergs, use both your upper and lower body on every stroke.

This, in turn, strengthens and tones your muscles and improves your endurance. Plus, rowing provides some surprising benefits for your heart and lungs.

It's a common misconception that rowing works only your arms. In reality, rowing is a full-body workout.

The major muscle groups it targets are your quadriceps, calves and glutes. Rowing is also known to strengthen your upper body muscles, including your pecs, arms, abdominal muscles and obliques.
