PRODUCT DETAILS

- With 2 years warranty parts and labour

Toorx RWX-700 Rower

The RWX-700 offers both air and magnetic resistance with motorized adjuster for a very smooth and intense rowing experience. The air resistance has been specifically designed to simulate a water rowing experience.

Moreover, this rower has a maximum user weight of 150 kg. Additionally, the console has a blue backlight LCD display with a smartphone/tablet holder. The console itself displays your strokes/min, total strokes, calories, time, distance and pulse rate. Additionally, the rower comes with pre-set programs for easier training such as: 500/TM, Watt, 4 HRC, Recovery, Manual, Race, 12 pre-set and 4 user profiles.

Key Features:
 Air and Magnetic Braking System
 Space Saving
 Built-in Wireless Pulse Receiver

Benefits Of The Product:
Rowing machines, also known as ergometers or ergs, use both your upper and lower body on every stroke.

This, in turn, strengthens and tones your muscles and improves your endurance. Plus, rowing provides some surprising benefits for your heart and lungs.

It s a common misconception that rowing works only your arms. In reality, rowing is a full-body workout.

The major muscle groups it targets are your quadriceps, calves and glutes. Rowing is also known to strengthen your upper body muscles, including your pecs, arms, abdominal muscles and obliques.

BRAND

TOORX
