PRODUCT DETAILS

The Toorx Speedball Swivel with Chrome Plated Steel Material and Ball-Bearing Inside is a top-of-the-line accessory designed to enhance your speedball training experience. Crafted with precision and durability in mind, this swivel is an essential addition to any boxing or martial arts training setup.

Key Features:

Chrome Plated Steel Material: This speedball swivel is constructed from high-quality chrome-plated steel. Chrome plating not only provides an attractive, mirror-like finish but also ensures exceptional corrosion resistance, making it perfect for use in gyms or training facilities where the equipment can be exposed to sweat and moisture.

Ball-Bearing Inside: The incorporation of a ball-bearing inside the swivel sets it apart from

standard swivels. This ball-bearing mechanism enables ultra-smooth and frictionless rotation, allowing you to maintain a consistent rhythm during your speedball workouts. This feature reduces the strain on your wrists and arms, promoting longer and more effective training sessions.

Enhanced Speed and Accuracy: The Toorx Speedball Swivel is designed to maximize your speed and accuracy when practicing with a speedball. The low-friction ball-bearing system ensures that the speedball rotates effortlessly and consistently, allowing you to focus on your technique and precision.

Secure Mounting: This swivel is equipped with a secure mounting system that can be easily attached to a ceiling hook or a wall bracket. It provides stability during even the most intense speedball workouts, ensuring safety and preventing accidents.

Versatile Use: Whether you're a professional boxer, a martial artist, or just looking to improve your hand-eye coordination and agility, this swivel is suitable for all skill levels and training goals. It's also an excellent addition to home gyms and fitness centers.

Easy Installation: The Toorx Speedball Swivel comes with all the necessary hardware for easy installation. You don't need to be a professional handyman to set it up; clear instructions are included to guide you through the process.

Sleek Design: Beyond its functionality, this speedball swivel boasts a sleek and modern design that adds a touch of sophistication to your training space. Its polished chrome finish not only looks great but is also easy to clean and maintain.
